Monterey Heights Water Transmission Line

Monterey Heights Water Transmission Line project consists of installing a 16” pipeline from Carolina Beach Road through the Linden Ridge and Huntington Forest neighborhoods. The water transmission main will be installed within the NCDOT rights-of-way.

Herring Rivenbark, Inc. has been awarded the construction contract and work in August, 2019 with a completion date of August, 2020.

This project will improve the water quality, pressure and fire service to the southern area of the CFPUA public system.
