Northern Water Mains Project

In partnership with New Hanover County, Cape Fear Public Utility Authority is constructing over 20,000 linear feet of water distribution main to serve businesses and residents in the northern area of the county. This project will respond to the community’s need to provide a dependable supply of drinking water and water for fire protection to this area of New Hanover County.

The notice to proceed for Construction was issued in September 2019 with a completion date expected in July 2020. TA Loving Company is the contractor for this project.
