

Cape Fear Public Utility Authority

**Department of
Public & Environmental Policy**

INTERNSHIP OPPORTUNITY

Description

Assist the Public & Environmental Policy Department and the Climate Resiliency Working Group in creating a comprehensive Resiliency Plan.

This work will entail completing environmental risk assessments, forming resiliency policies, writing white papers, and potentially aid in grant writing.

The work is tailorable to the student's interests, with the main theme being resiliency at CFPUA.

Eligibility

Required:

- Graduate students or Undergraduates with a junior or senior standing
- Passion and interest in climate change adaptation planning, environmental science, and local government
- Stable internet connection due to position being fully remote

Preferred experience in:

- Climate Change Issues
- Environmental Policy
- Grant Writing
- Resiliency and/or Sustainability Planning

Apply

Internship is offered January 25, 2021–April 23, 2021

Interns will be paid \$11.50/hour with a maximum 20 hours/week along with academic credit

To apply online, go to www.cfpua.org, click "Careers", then click "Online Application". Put "**Environmental Policy Intern**" as the Position Title, and "**0**" as the Vacancy Number. Include **resume**, **relevant coursework**, and **cover letter** explaining your interest in the internship in attachments section.

Position closes November 25, 2020 at 5:00 PM.
