

Rehabilitation and Replacement of Gravity Sanitary Sewer in Downtown Wilmington Area

The Rehabilitation and Replacement of Gravity Sanitary Sewer in Downtown Wilmington Area project will rehabilitate approximately 2,275 feet of 36-inch gravity sewer mains and 76 feet of 48-inch gravity sewer mains in the McCumbers Ditch outfall. The 5th Avenue portion of the project will rehabilitate or replace over 3,600 feet of 6-inch water mains and over 9,000 feet of 6-inch and 8-inch gravity sanitary sewer mains. This work will be performed in advance of a paving and curb replacement project funded and managed by the City of Wilmington.

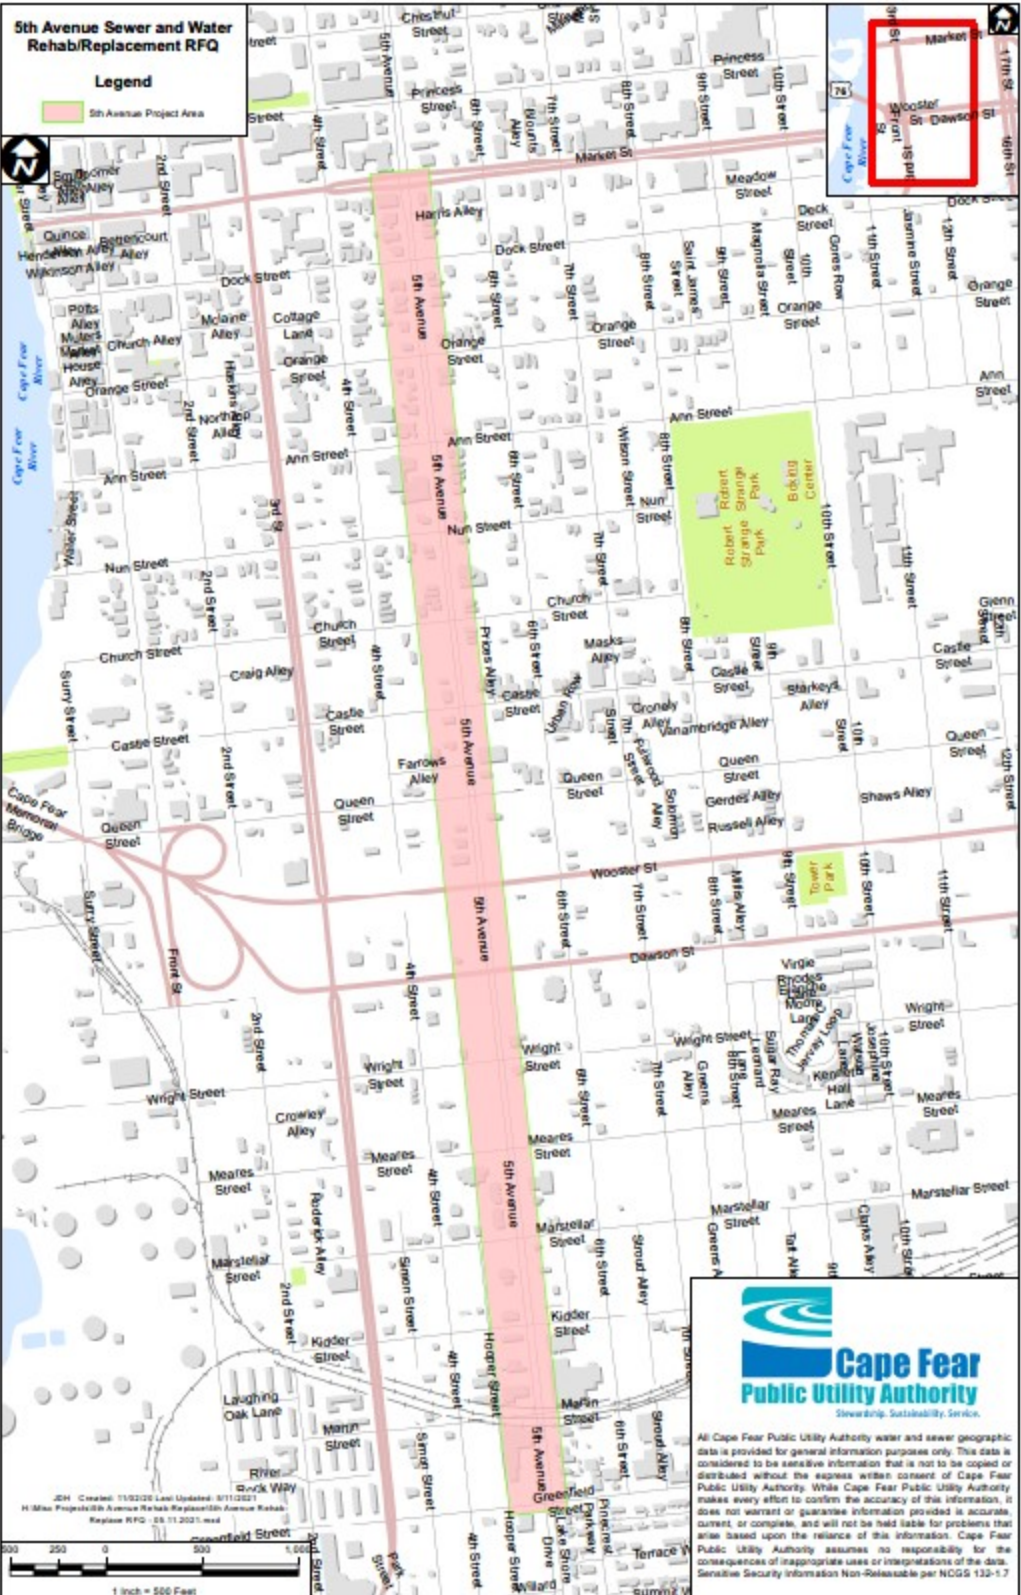

As of May 2021, the project is in the design phase.
