

## **North Front Street Water and Sewer Project**

The North Front Street Water and Sewer Project is a City of Wilmington lead project. This project will replace both water and sewer lines between Chestnut and Walnut Streets along North Front Street. Construction began in mid-April 2022 and is expected to be completed by mid-September 2022. The first phase started at Chestnut Street to the intersection of Front and Grace Streets and is close to completion. Once the first phase is completed, the second phase from the intersection of Front Street and Grace Street to Front Street and Walnut Street will begin construction.
